

INVESTOR IN PEOPLE

The Patent Office
Concept House
Cardiff Road
Newport
South Wales
NP10 8QQ

I, the undersigned, being an officer duly authorised in accordance with Section 74(1) and (4) of the Deregulation & Contracting Out Act 1994, to sign and issue certificates on behalf of the Comptroller-General, hereby certify that annexed hereto is a true copy of the documents as originally filed in connection with the patent application identified therein.

In accordance with the Patents (Companies Re-registration) Rules 1982, if a company named in this certificate and any accompanying documents has re-registered under the Companies Act 1980 with the same name as that with which it was registered immediately before re-registration save for the substitution as, or inclusion as, the last part of the name of the words "public limited company" or their equivalents in Welsh, references to the name of the company in this certificate and any accompanying documents shall be treated as references to the name with which it is so re-registered.

In accordance with the rules, the words "public limited company" may be replaced by p.l.c., plc, P.L.C. or PLC.

Re-registration under the Companies Act does not constitute a new legal entity but merely subjects the company to certain additional company law rules.

Warning

After an application for a patent has been filed, the Comptroller of the Patent Office will consider whether publication or communication of the invention should be prohibited or restricted under Section 22 of the Patents Act 1977. You will be informed if it is necessary to prohibit or restrict your invention in this way. Furthermore, if you live in the United Kingdom, Section 23 of the Patents Act 1977 stops you from applying for a patent abroad without first getting written permission from the Patent Office unless an application has been filed at least 6 weeks beforehand in the United Kingdom for a patent for the same invention and either no direction prohibiting publication or communication has been given, or any such direction has been revoked.

Notes

- If you need help to fill in this form or you have any questions, please contact the Patent Office on 08459 500505.
- Write your answers in capital letters using black ink or you may type them.
- If there is not enough space for all the relevant details on any part of this form, please continue on a separate sheet of paper and write "see continuation sheet" in the relevant part(s). Any continuation sheet should be attached to this form.
- If you have answered YES in part 8, a Patents Form 7/77 will need to be filed.
- Once you have filled in the form you must remember to sign and date it.
- Part 7 should only be completed when a divisional application is being made under section 15(4), or when an application is being made under section 8(3), 12(6) or 37(4) following an entitlement dispute. By completing part 7 you are requesting that this application takes the same filing date as an earlier UK application. If you want the new application to have the same priority date(s) as the earlier UK application, you should also complete part 6 with the priority details.

1. Title Of Invention

Medical Cartridge Transfer Chair

2. Description of the Invention

The special medical device is for use in any domestic or public owned facility or home. The device is similar to a conventional transfer chairs however employs the inventive step of including a cross functional mechanical cartridge that is either, gear, sprocket, tooth belt, belt, chain driven via a rotating or reciprocating electrical or hydraulic power source.

The device is for use by the elderly and or low mobility persons. The device will enable them to be safely lifted, transported and allow safe transfer to a bed or other such secondary station i.e. a chair.

The device accepts its mechanical power from a cartridge, the cartridge containing various mechanic power generations and transmitting components.

The device transmits rotational or reciprocal motion to the receiving motion transmission components located with the transfer device.

The components located, transfer motion to lifting arms that are capable of lift the seat with the user located on it. The device also incorporates cam tilts that tilt the seat upward and forwards to give assistance to the use to stand or be transferred, either by the same mechanism or as shown via a separate motion creating source.

The device also comes with the ability to carry and non-dynamic board for safe transfers and special guide fans operated on the basis of a cam mechanism,

If hydraulic is used to cause motion of the systems then the fluid can be either compressible and or non-compressible.
